SIROMER PADDOCK CLEANER

Engine-powered sweeper for leaves, grass and rubbish. For ATVs or compact tractors with 50 mm tow bar ball hitch. Stiff brushes effectively sweep up loose materials and discharge them into the collector that holds approx. 500 l/150 kg.

Substantial front grassland tyres and spring-loaded rear pivot wheels with manual winch to make emptying the collector easy.

5.5 hp petrol motor powers the sweeper roller via a centrifugal clutch and belts; the engine is fitted with an oil level monitor which shuts down the machine at low oil levels. The 120 cm working width makes it an effective tool when collecting leaves and grass from lawns and parks.

Weight: 265kg

L x W x H: 3,000 x 1,520 x 860 mm

Wheels: 16 x 6.50-8/13 x 6.5-5

Working width: 1,200 mm
